

Quick Start to Designing Your Workplace Safety Training

Synopsis

Occupational Health and Safety (OHS) training become dramatic progress over the past decade. Thinking of the emerging trends in the OHS training landscape, there is a need to ensure OHS trainers to continue to upskill their professional competencies, as well as build their integrity and judgment, to effectively train and mentor the Singapore workforce.

This course is designed for OHS trainers who are tasked to design induction sessions or courses for workplace safety training. The participant will be introduced best practices in courseware design using systematic approaches. He/She will also learn how to perform training needs assessment, job/task analysis before they can design and develop your training. Different tools and templates will be provided to the quick-start the development of your own training programs.

Objectives:

By the end of the course, participants will be able to:

- Identify workplace safety training needs of target organisation/ industry/ learners to support design of training.
- Describe and apply an Instructional Design Model in Courseware design and development.
- Conduct training needs assessment that aligns performance needs with organizational results.
- Write complete learning outcomes based on observable actions or behaviors.
- Apply learning theories in the design of lesson plan to engage your learners.
- Select instructional methods and media to support the attainment of learning objectives.
- Apply guidelines to use of multimedia in instructional materials.
- Create learner guides, facilitator guides, and supporting materials.
- Plan the Implementation of training.
- Develop an evaluation approach for the training

Who should attend

OHS trainers/ instructors/ facilitators, researchers, principals, managers and representatives of OHS training organizations

Trainer

Mr Leonard Tay is the founder of Learning Focus Technologies and has been active professionally for the past 24 years with experience in the areas of Information Technology, Customer Service, Business Development including Training Delivery and Consultancy. He has experience lecturing part-time at several Polytechnics and has facilitated training on topics related to Job Interview Skills, Resume Writing, Technopreneurship, Design Thinking, Creativity and Innovation, Interactive Multimedia, Database Management and Systems Analysis and Design. As he specialises in training and instructional design, he is involved in facilitating the Advance Cert. in Learning and Performance (ACLPL) which is a nationally recognised programme for certifying trainers.
